

This is mr bear and he lives with mrs bear and the kids who live in bear cottage in a deep dark damp forest and they eat fish and small animals who live in the river. Their best food is salmon and they are hard to catch. They often have a difficulty to find them because they don't live near a river that has salmon. The bear family sometimes comes out of the forest to find better food. They have a bear tea party in town that they have with lots of bears in beartown. They can't be late because they are not to be seen by humans because their not allowed to know that they are alive not statues. They went to the party with the other bears in Bear Town.
